## Income Statement

Revenue

Revenue had decreased by $\mathrm{S} \$ 7.6$ million to $\mathrm{S} \$ 13.5$ million in FY 2009. The decrease in revenue was mainly due to from the Group's Tray Recycling business segment, Manufacturing business segment and Natural Gas Vehicle ("NGV") related business segment during the financial year.

The decrease in the Group's Tray Recycling and Manufacturing business segment were mainly due to the decrease in volume of business as a result of the economic downturn of the global electronic industry during the financial year. The decrease in the Group's NGV business segment was mainly due to the decrease in the number of car conversion as a result of the significant decrease in oil price in first half of the financial year.

## Gross profit margin

Gross profit margin had increased $7 \%$ to $23 \%$. The increase in gross profit margin was mainly due an increase in the proportion of the revenue from the NGV related business segment during the financial year, which has a higher gross profit margin than the Tray Recycling business segment.

## Loss from continuing operations

The Group had incurred a loss from continuing operations of $\mathrm{S} \$ 7.4$ million in FY 2009 as compared to a loss of $\mathrm{S} \$ 5.5$ mil in FY 2008. The main reasons for the loss from continuing operations were as follows:
a) Turnover

The loss from continuing operation was due to a $S \$ 0.3$ million decrease in gross profit as a result of the large decrease in the Group's total revenue in FY 2009.

## b) Administrative expenses

Administrative expenses had increased by $\mathbf{S} \$ 1.8$ million to $\mathrm{S} \$ 10.0$ million in FY 2009. The increase in administrative expenses was mainly due to $\mathbf{S} \$ 1.3$ million and $\mathbf{S} \$ 1.9$ million of impairment charges on inventory, and plant and equipment respectively, The increase in administrative expenses was offset slightly by the absence of $S \$ 0.4$ million of cost of technology transfer and $\mathrm{S} \$ 0.8$ million of impairment charges on goodwill in FY 2008.

The loss from contunuing operation has been slightly offset by a $\$ \$ 0.2$ million decrease in finance expenses. The decrease in finance expenses was mainly due to the decrease in bank commission and charges and the decrease in interest costs on borrowings as a result of the decrease in the Group's borrowing during the financial year.

## Balance Sheet

## Non-current assets

The Group's non-current assets had decreased by $\mathrm{S} \$ 6.4$ million to $\mathrm{S} \$ 2.3$ million as at 30 June 2009. The decrease in the Group's non-current assets was mainly due to the sales of the investment property during the financial year and the decrease in the the net book value of property, plant and equipment as at 30 June 2009. The decrease in property plant and equipment was mainly due to the $\mathbf{S} \$ 1.9$ million impairment charge on plant and equipment and depreciation of the property, plant and equipment during the financial year. The S\$1.9 million impairment charges was mainly due to a lower forecasted net cash flow from the plant and equipment in the next financial year

## Current assets

The Group's current assets had decreased by S $\$ 4.1$ million to $\mathbf{S} \$ 8.1$ million as at 30 June 2009. The decrease in the Group's current assets was mainly due to the decrease in cash and cash equivalents, due from related companies and trade receivables as at 30 June 2009. The decrease in trade receivables was in line with the decrease in revenue. The decrease in the Group's current assets was offset slightly by the slight increase in inventory as at 30 June 2009. The slight increase in inventory is mainly due to the increase in the CNG trucks inventory for customers' orders expected to be delivered in FY 2010 but the increase in inventory is offset by the impairment charge on the other inventory balance as at 30 June 2009.

## Current liabilities

The Group's current liabilities had decreased by $\mathrm{S} \$ 1.6$ million to $\mathrm{S} \$ 5.0$ million as at 30 June 2009. The decrease in the Group's current liabilities was mainly due to the decrease in current loans and borrowings, bill payables to banks and due to related company as at 30 June 2009. The decrease in the Group's current liabilities was offset by the increase in trade creditors as at 30 June 2009.

## Non-current liabilities

The Group's non-current liabilities had decreased by $\mathbf{S} \$ 1.6$ million to $\mathrm{S} \$ 0.2$ million as at 30 June 2009. The decrease in the Group's non-current liabilities was mainly due to the decrease in non-current loans and borrowings as a result of early repayment of the Group's borrowings after the disposal of the investment property as at 30 June 2009.

## Cash Flow Statement

The Group's cash and cash equivalents as at 30 June 2009 had decreased by $\$ \$ 0.6$ million to $\mathrm{S} \$ 0.6$ million. The decrease in the cash and cash equivalents was mainly due to repayment of loans and borrowings and decrease in net cash from operating activities. The decrease in cash and cash equivalents was offset by the proceeds from the disposal of investment property.
